TSACOLO provides blended bandwidth from three Tier One providers. Our routes are optimized through an InterNap 10GX FCP insuring fastest path with little to no packet loss.

### NETWORK PROVIDERS

- LEVEL III COMMUNICATIONS
- COGENT COMMUNICATIONS
- TELIA SONERA

All independently switched into our network and redundant

**With Telia Sonera, we provided high quality and dependability. Telia Sonera's connection and presence in Europe assists TSACOLO in providing quality bandwidth to its European and Asian customers.**

**With Telia's recent expansion into Turkey, Kazakhstan, Georgia, and other parts of Eurasia, TSACOLO can provide better support for delivery to your other operating units to these regions.**
